

Quest Title: Explorers Class 2

As Geographers We Will...

Find the Arctic and Antarctica on a globe and map. Learn the continents and oceans of the world. Find out about, record and compare the temperature / weather in these places compared to the UK. Explore North, South, East and West.

As Scientists we will...

We will find out about different animals and how they adapt to their environments and habitats. We will look at different materials, understand their properties and see how they can change when forces are applied.

As Historians we will ...

Find out about famous explorers, focusing on the discovery of the south pole, and how transport and kit used to explore polar areas has changed.

**DRIVERS:
Personal, Learning
& Thinking Skills**

**Learning Outside the
Classroom**

The Arts

Diversity

**We will care, aspire,
belong**

We will strive to challenge ourselves to achieve our best as a group to complete our 'expedition' of learning. We will find out how we can look after our planet.

We will have Forest Schools and go on an expedition around the school grounds. We will go on a trip to Containart to complete some artwork linked to the travels of sailors.

As designers we will find out about and compare our homes to Eskimo homes and design and build a junk model 'home' for a polar animal such as a penguin. We will explore cold colours and mixing colours to look at shading.

Investigate how Eskimos' and Inuit's live. Find out about the effects of global warming on the Polar areas and what we can do about it.

We will learn about working as a team and how belonging to a team can help when exploring. We will care about each other in the team and learn about the importance of caring for the environments that are being explored. We will aspire to be the best we can be.
